

Charter schools outperform District schools by a wide margin

Overall Percentage of Passing Students

The majority of Charter school's students are passing both Math and reading, while almost half of the Districts students fail.

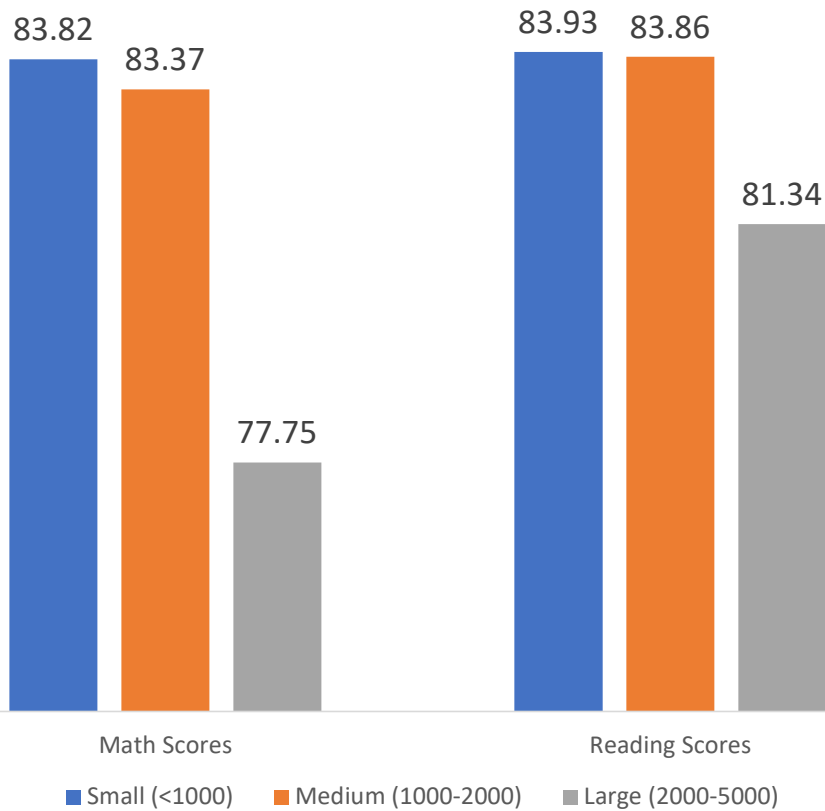

Percentage of Passing Students by School

The top 5 performing schools are all Charter schools while the bottom 5 are all District.

Schools with fewer pupils Deliver Higher scores...

Math and Reading Score Averages by School Size

Medium and Small size schools are close but smaller size schools still perform best.

... However, higher spending per student does not have the expected effect

Math and Reading Score Averages by Spend per Student

Schools that spent more per student had lower scores.
